The figure is a 3D scatter plot representing the distribution of 100 motorcycle riders. The plot is divided into 100 numbered boxes, each representing a rider. The boxes are arranged in a grid-like pattern, with the number of riders in each box indicated by the size of the box. The plot shows a clear trend where older riders tend to be heavier and taller, while younger riders are generally lighter and shorter. The plot is set against a black and white checkered background.
