FIM Anti-doping

2018 FIM Supersport World Championship

Rider Anthony West provisionally suspended

The Fédération Internationale de Motocyclisme (FIM) has advised Australian rider Anthony West that he is provisionally suspended pursuant to Article 7.9 of the FIM Anti-doping Code (CAD). The decision to provisionally suspend Mr. West was mandatory following the receipt of a report from the WADA accredited laboratory in Cologne indicating an Adverse Analytical Finding of a non-specified substance under Section 6 (Stimulants) of the 2018 FIM Prohibited List, in a urine sample collected from him at an in-competition test carried out by the FIM at the round of the 2018 FIM Supersport World Championship held in Misano, San Marino, on 8 July 2018.

Mr. West has the right to request and attend the analysis of his B sample.

Mr. Anthony West is provisionally suspended with effect from 14 September 2018. He is therefore barred from participating in any motorcycling competition or activity until further notice. Under Article 7.9.3.2 CAD, Mr. West may request lifting of his provisional suspension.

Under the World Anti-Doping Code and the FIM Anti-Doping Code, the FIM is unable to provide any additional information at this time.

About the FIM (www.fim-live.com)

The FIM (Fédération Internationale de Motocyclisme) founded in 1904, is the governing body for motorcycle sport and the global advocate for motorcycling. The FIM is an independent association formed by 113 National Federations throughout the world. It is recognised as the sole competent authority in motorcycle sport by the International Olympic Committee (IOC). Among its 50 FIM World Championships the main events are MotoGP, Superbike, Endurance, Motocross, Supercross, Trial, Enduro, Cross-Country Rallies and Speedway. Furthermore, the FIM is also active and involved in the following areas: public affairs, road safety, touring and protection of the environment. The FIM was the first international sports federation to impose an Environmental Code in 1994.
