

	OPTION	COMPOUND	TYPE	SPEC	DESCRIPTION	QUANTITY PER RIDER	
FRONT	DIABLO SLICK NHS						
	NEW A	SC1	SOFT	A0460	New development solution in soft compound, 120/70 size. The new front solution for the Supersport class debuts here in Assen, it features an SC1 compound but a new structure that should improve the feedback at maximum lean angle and give more support in corner entry.	6	
	B	SC1	SOFT	STANDARD	Standard solution in soft compound, 120/70 size. It represents the slick evolution of the development solution Y0898. It was the most successful front solution throughout the 2020 season.	7	
	C	SC2	MEDIUM	STANDARD	Standard solution in medium compound, 120/70 size. It offers a similar grip to the SC1 product, but allows better wear resistance and greater stability at medium-high temperatures.	7	
	DIABLO INTERMEDIATE						
	I	SCW	INTERMEDIATE	STANDARD	Intermediate solution between the dry tyre and DIABLO Rain. This tyre has a pattern with a smaller number of grooves than the wet tyre and a compound halfway between a slick and a wet solution which enables it to work well in wet surface conditions or drying asphalt with already dry lines.	2	
	DIABLO RAIN						
	R	SCR1	RAIN	STANDARD	Standard solution for rain with a grooved tread ideal in conditions of heavy rain or on thoroughly wet surfaces. The compound used for this product guarantees maximum performance in the wet both at cold temperatures and at medium-hot temperatures.	6	
	TOTAL FRONT OPTIONS:				5	TOTAL NUMBER OF FRONT TYRES PER RIDER:	28
	REAR	DIABLO SLICK NHS					
A		SCX	SUPER SOFT	STANDARD	Standard solution in super soft compound, 190/60 size. Presented in Misano, the super soft solution dedicated to the Supersport class, like its counterpart in the Superbike class, offers more grip compared to the standard soft compound.	7	
B		SC0	SOFT	STANDARD	Standard solution in soft compound, 190/60 size. This solution presents a soft SC0 compound improved to give maximum level of performance. It was the most successful rear option throughout the 2020 season.	8	
C		SC1	MEDIUM	STANDARD	Standard solution in medium compound, 190/60 size. The solution in SC1 compound has been developed to offer the right compromise between constant performance and wear levels, thanks to a wide range of operating temperature.	5	
DIABLO INTERMEDIATE							
I		SCW	INTERMEDIATE	STANDARD	Intermediate solution between the dry tyre and DIABLO Rain. This tyre has a pattern with a smaller number of grooves than the wet tyre and a compound halfway between a slick and a wet solution which enables it to work well in wet surface conditions or drying asphalt with already dry lines.	2	
DIABLO RAIN							
R		SCR1	RAIN	STANDARD	Standard solution for rain with a grooved tread ideal in conditions of heavy rain or on thoroughly wet surfaces. The compound used for this product guarantees maximum performance in the wet both at cold temperatures and at medium-hot temperatures.	7
