MOTUL FIM Superbike World Championship/ FIM Supersport and Supersport 300 World Championships

Provisional calendar update, 29 April

The Autodrom Most will make its debut on the WorldSBK Calendar in 2021 after signing a five-year agreement, while the Australian Round is set to return in 2022.

The FIM, the Autodrom Most and Dorna WSBK Organization (DWO) are delighted to announce a new agreement that will see the MOTUL FIM Superbike World Championship race in Czech Republic from 2021. The five-year agreement means the Czech Round will be included in the WorldSBK Calendar until 2025 with the announcement made at a presentation in Prague on Thursday 29th of April.

The Autodrom Most will host the Czech Round for the first time as it joins the WorldSBK calendar with the Czech circuit hosting the sixth Round of the 2021 season from the 6th to the 8th of August. All three classes as well as the Yamaha R3 bLU cRU European Cup will compete at the Autodrom Most, which includes two Czech riders in WorldSSP300 with Petr Svoboda and Oliver König as well as the Jakub Smrz-run Accolade Smrz Racing team.

Located near Prague, the Autodrom Most was opened in 1983 and was then the first permanent motor racing complex in what was then known as Czechoslovakia. The circuit has already hosted many motorsport events including national motorcycle championships and will be a new, exciting addition to WorldSBK in 2021; while the Championship venue fits within the circuit's commitment to be part of the sports, social and cultural life of the region. The event will also be broadcast live on Czech channel Nova Sport, following a five-year agreement with DWO.

Due to the ongoing COVID-19 pandemic, the FIM, the Phillip Island Grand Prix Circuit and DWO have agreed there will be no 2021 edition of the Australian Round. We will now work for a return to the iconic venue in 2022 in the most successful way as the first event of the 2022 Championship.

With the 2021 season set to begin in less than a month, the FIM and Dorna WSBK Organization are constantly working with Government Officials and Circuits in order to continue putting everyone's safety first. Any further updates to the 2021 WorldSBK calendar will be communicated accordingly.

DATE	COUNTRY	CIRCUIT	WorldSBK	WorldSSP	WorldSSP300

About the FIM (www.fim-moto.com)

The FIM (Fédération Internationale de Motocyclisme) founded in 1904, is the governing body for motorcycle sport and the global advocate for motorcycling. The FIM is an independent association formed by 115 National Federations throughout the world. It is recognized as the sole competent authority in motorcycle sport by the International Olympic Committee (IOC). Among its 50 FIM World Championships the main events are MotoGP, Superbike, Endurance, Motocross, Supercross, Trial, Enduro, Cross-Country Rallies and Speedway. Furthermore, the FIM is also active and involved in the following areas: public affairs, road safety, touring and protection of the environment. The FIM was the first international sports federation to impose an Environmental Code in 1994.
